P.N. Das College Event / Activity Report

1. Name of Department / Committee / Cell: *Internal Quality Assurance Cell*
2. Name of the Event / Activity: *One - day State Level webinar on "Cyber Security"*
3. Date(s) of the event: *13.01.2021*
4. Venue of the Event: *Online*
5. Nature of the Activity: *Webinar*
6. Level of the activity (Tick / underline the applicable choice): *International / National / State / University / District / College / Local / Village / Gram Panchaye: State*
7. Name of the Sponsor / Collaborator, if any: *Bijoya Krishna Girls' College and Muralidhar Girls' College*
8. Purpose / Aims / Objectives of the event: *The Indian government has embarked on a programme to turn the country into a digital economy which although is likely to trigger a fresh wave of economic growth, but will also pose a big challenge of cyber security as increasing amount of consumer and citizen data will be stored digitally and a large number of transactions will be carried out online by companies, individuals as well as government departments. That makes India a big target for cyber-criminals and hackers. The purpose of cyber security awareness is to focus attention on security, creating sensitivity to the threats and vulnerabilities of computer systems and recognition of the need to protect data, information and systems on the individual as well as institution level so that we all are better prepared to handle this threat.*
9. Names and designations / professions of dignitaries, guests, participants:

Capacity	Name	Designation / Profession / Affiliating Institute / Organization
Welcome Speech	<i>Dr Sharmila De</i>	<i>Principal, P.N. Das College</i>
Guest(s)	<i>Dr Ruma Bhattacharyya</i>	<i>Principal, Bijoy Krishna Girls' College</i>
	<i>Dr Kinjalini Biswas</i>	<i>Muralidhar Girls'</i>

**ACTIVITY REPORT
2021-22**

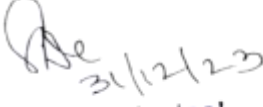

- Name of Department / Committee / Cell: *Internal Quality Assurance Cell (IQAC), P.N. Das College in collaboration with IQAC, Gobardanga Hindu College, Habra Sri Chaitanya Mahavidyalaya, Dinabandhu Mahavidyalaya, Bengalen (Lender Model).*
- Name of the Event / Activity: *One day faculty Development Programme on Website Designing and E-module Development*
- Date(s) of the event: *10.05.2022*
- Venue of the Event: *Auditorium and IQAC Room, P.N. Das College*
- Nature of the Activity: *Workshop, Training.*
- Level of the activity: *SD&E*
- Purpose / Aim / Objectives of the event: *To make the Teaching and Non-Teaching staff efficient in website designing and preparing E-Module for better teaching & learning process.*
- Names and designations / professions of dignitaries, guests, participants:

Capacity	Name	Designation / Profession / Affiliating Institute / Organization
Inauguration by	<i>Dr. Sharmila De</i>	<i>Principal, P.N. Das College</i>
Chief Guest	<i>Dr. Indrani Chatterjee</i>	<i>Principal, Sri Chaitanya Mahavidyalaya</i>
Speech	<i>Dr. Madhusuchanda Lahiri</i>	<i>Co-Ordinator, IQAC</i>
Resource Person(s)	<i>Dr. Sharmila De</i>	<i>Principal, P.N. Das College</i>
	<i>Dr. Bablu Biswas</i>	<i>Assistant Professor, Department of Math</i>

- Name(s) of the Anchor(s): *Prof. Kabeer Sen Banerjee, Associate Professor, Department of English*
- Beneficiaries / participants / audience (Type and/or number): *45 no. of staff of various college along with Teaching and Non-Teaching staff of P.N. Das College.*

11. Outcome of the activity (Tick or underline the suitable alternative(s) and give details):
Skill Development.

12. Evidence produced (Lists, Certificates, letters, newspaper cuttings, etc.):

Notice

The photograph shows a printed notice on a white sheet of paper, placed on a wooden surface. The notice is headed with the college's logo and name, followed by contact information and accreditation details. It contains a notice about a one-day faculty development program on ICT-based teaching-learning, organized in collaboration with other institutions. The notice is signed by the principal and dated 26/04/2022. The photograph also shows handwritten notes in the top left and right corners of the paper, including 'Ref: A71/FDP/2021-22' and 'Date: 19/04/2022'.

ACTIVITY REPORT 2021-22

- Name of Department / Committee / Cell: Internal Quality Assurance Cell (IQAC), P.N. Das College in collaboration with IQAC, Gobardanga Hindu College, Habra Sri Chaitanya Mahavidyalaya, Dinabandhu Mahavidyalaya Bangoren (Under MCA).
- Name of the Event / Activity: One day Faculty Development Programme on Website Designing and E-module Development
- Date(s) of the event: 10.05.2022
- Venue of the Event: Auditorium and IQAC Room, P.N. Das College
- Nature of the Activity: Workshop, Training.
- Level of the activity: IInd
- Purpose / Aim / Objectives of the event: To make the Teaching and Non-Teaching staff efficient in website designing and preparing E-Module for better teaching & learning process.
- Names and designations / professions of dignitaries, guests, participants:

Capacity	Name	Designation / Profession / Affiliating Institute / Organization
Inauguration by	Dr. Sharmila De	Principal, P.N. Das College
Chief Guest	Dr. Subrata Chatterjee	Principal, Sri Chaitanya Mahavidyalaya
Speech	Dr. Madhuchandra Lahiri	Co-ordinator, IQAC
Resource Person(s)	Dr. Sharmila De	Principal, P.N. Das College
	Dr. Bablu Biswas	Assistant Professor, Department of Math

- Name(s) of the Anchor(s): Prof. Kajari Sen Banerjee, Associate Professor, Department of English
- Beneficiaries / participants / audience (Type and/or number): 45 no. of staff of various college along with Teaching and Non-Teaching staff of P.N. Das College.
- Outcome of the activity (Tick or underline the suitable alternative(s) and give details):
Skill Development
- Evidence produced (Lists, Certificates, letters, newspaper cuttings, etc.):

Activity I: State Level Workshop on the "Innovative Use of ICT in Teaching -Learning and Research"

Date: 6th, 8th and 9th June, 2020

Flyer:

**P.N. Das College, Palta**
in collaboration with
Sir Gurudas Mahavidyalaya, Kolkata
&
Dinabandhu Mahavidyalaya, Bongaon

Organizes a 12 Hour Online Workshop
On
**The Innovative Use of Information and
Communication Technology in Teaching-
Learning and Research**
(Date: 6th, 8th and 9th June, 2020)
(Every day from 11.00 AM to 3.00 PM)

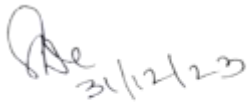

About the Workshop:

Restructuring Higher Education is a key reform of the National Education Policy. It has been observed that technology plays a vital role in Teaching, Learning and Evaluation. NMEICT was introduced a decade ago for the benefit of all learners in Higher Educational Institutions and is believed to have increased the GER by 5% in XI Five Year Plan. The two major components were providing connectivity and content generation. Keeping in line with the same, the NEP focuses on e-learning, setting up of virtual laboratories, online availability of teachers and mentors.

The sudden closure of educational institutions in response to the Covid-19 pandemic has necessitated the adoption of online teaching learning strategies. During this period students too have adopted and adapted to the change in pedagogical tools and means. Technological innovations are inexorable and at the same time inextricable from the processes of social change and advancement.

The workshop will emphasize on all features of Google Drive, emphasizing on collaborative work, evaluation, own website development, use of Google platform for attendance and LMS, as a whole. Also hands on training on e-module development and publishing the same shall be provided.

We are already using e-resources through NLIST, NDLI, EPG Paathshala, E-Shodhganga etc. The workshop shall emphasize on the access and use of digital information.

NAAC ACCREDITED - 2016

Ref.:

Date

Use of technology which was initially boasted as best practice of an HEI is now a basic means of communication between the teacher and the taught.

Use of ICT in Research, too, is well established. Secondary Data collection and analysis using free software shall, therefore, be one of the key areas of the proposed workshop.

The World has dramatically changed with the incorporation of Information and Communication Technology in almost every field of our social life, and education, too, with an optimum and efficacious use of digital platforms, has undergone a virtual metamorphosis over the last few years. The pandemic has only exposed us to the potentialities and possibilities of information and communication technology (ICT) as a way to see as well as to change the very concept of education in the days to come. The Primary objective of the workshop, spreading over a total of 9 hours, is to motivate the teaching fraternity for enlivening the teaching process with the use of Information and Communication Technology (ICT) and to equip the teachers with the latest assessment tools of higher education.

Resource Persons:

- Sri Debashish Barman
(Department of Computer Science, Sir Gurudas Mahavidyalaya)
- Dr. Suchismita Majumdar
(Librarian, Sir Gurudas Mahavidyalaya)
- Dr. Sudip Mukhopadhyay

ACTIVITY REPORT 2019 - 20

- Name of Department / Committee / Cell: IQMC, P.N. Das College
- Name of the Event / Activity: State-Level Workshop on the "Innovative Use of ICT in Teaching-Learning and Research"
- Date(s) of the event: 6th, 5th and 6th June, 2020
- Venue of the Event: College (online Mode)
- Nature of the Activity (Tick / underline the applicable choice): programme / function / event / competition / lecture / exhibition / camp / workshop / training / extension activity / rally / campaign / drive / celebration of days / extending help in terms of students, expertise, experience, etc.
Workshop
- Level of the activity (Tick / underline the applicable choice): International / National / State / University / District / College / Local / Village / Gram Panchayat
State
- Name of the Sponsor / Collaborator, if any:
IQMC, Sir Gurusaday Mahavidyalaya, Kolkata & IQMC, Dinabandhu Mahavidyalaya, Burdwan
- Purpose / Aims / Objectives of the event:
The sudden closure of educational institutions in response to the Covid-19 pandemic has necessitated the adoption of online teaching learning strategies. During this period students too have adopted and adapted to the change in pedagogical tools and means. Technological innovations are inescapable and at the same time inextricable from the processes of social change and advancement.
The workshop will emphasize on all features of Google Drive, emphasizing on collaborative work, evaluation, own website development, use of Google platform for attendance and LMS, as a whole. Also hands on training on e-module development and publishing the same shall be provided.
We are already using e-resources through NLIIT, NDLI, EPG Panthshala, E-Shodhganga etc. The workshop shall emphasize on the access and use of digital information.
Use of Technology which was initially boasted as the best practice of an MBE is now a basic means of communication between the teacher and the taught.
Use of ICT in Research, too, is well established. Secondary Data collection and analysis using freesoftware shall, therefore, be one of the key areas of the proposed workshop.

Activities:

P.N. Das College Event / Activity Report

1. Name of Department / Committee / Cell: *Internal Quality Assurance Cell*
2. Name of the Event / Activity: *One - day State Level webinar on "Cyber Security"*
3. Date(s) of the event: *13.01.2021*
4. Venue of the Event: *Online*
5. Nature of the Activity: *Webinar*
6. Level of the activity (Tick / underline the applicable choice): *International / National / State / University / District / College / Local / Village / Gram Panchay: State*
7. Name of the Sponsor / Collaborator, if any: *Bijoya Krishna Girls' College and Muralidhar Girls' College*
8. Purpose / Aims / Objectives of the event: *The Indian government has embarked on a programme to turn the country into a digital economy which although is likely to trigger a fresh wave of economic growths, but will also pose a big challenge of cyber security as increasing amount of consumer and citizen data will be stored digitally and a large number of transactions will be carried out online by companies, individuals as well as government departments. That makes India a big target for cyber-criminals and hackers. The purpose of cyber security awareness is to focus attention on security, creating sensitivity to the threats and vulnerabilities of computer systems and recognition of the need to protect data, information and systems on the individual as well as institution level so that we all are better prepared to handle this threat.*
9. Names and designations / professions of dignitaries, guests, participants:

NAAC ACCREDITED - 2016

Ref. 059/NE/2020-21 Date 05/05/2021

To
Dr. Manas Baidya,
Principal,
Malda College,
Malda.

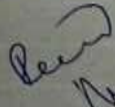

Sub: Request for conducting Webinar as a Resource Person under the MoU between Malda College and P.N. Das College.

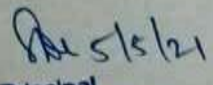

Dear Sir,

It gives me immense pleasure to let you know that a One-day Webinar (online) is being organised by the college on 12.05.2021 on "Preparing for Assessment and Accreditation under Revised Guidelines". You are requested to act as a Resource Person as part of the MoU between Malda College and P.N. Das College at the Webinar. It would also be kind of you to request Prof. Anamika Roy, Assistant Professor, English, Malda College, on behalf of us to join the Webinar as the other Resource Person.

Looking forward to a favourable response from your end.

Thank you.
Yours faithfully,

Manas Kr Baidya

Activity I: 36- Hours Training Course on Advance Excel (2021-22) Conducted by Right Brains Technology in Collaboration with P.N. Das College (11.02.2022 to 18.05.2022)

P. N. Das College
AFFILIATED TO WEST BENGAL STATE UNIVERSITY
Accredited by NAAC (Grade-B)
Santinagar, Palta, P.O. Bengal Enamel, 24 Pgs. (N.)

**11. Name of the Course: 36- Hours Training
Course on Advance Excel (2021-22)**

Course Brochure

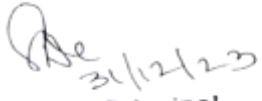

Course Name :- Advance Excel

SECTION 1

- 1) THE WORKSHEET SCREEN
- 2) CREATE & CLOSE FILES TABS & GROUPS
- 3) EDITING DATA
- 4) FORMATING IN EXCEL
- 5) RELATIVE ABSOLUTE MIXED REFERENCE
- 6) SPEAK CELLS
- 7) TEXT TO COLUMNS
- 8) COPYING & FILLING
- 9) ADVANCE FILL
- 10) VIEWING WORKSHEETS
- 11) SORT & FILTER
- 12) WORKING WITH WORKSHEETS

SECTION 2

- 1) LOGICAL FUNCTIONS
- 2) IF FUNCTIONS LOGICAL FUNCTIONS
- 3) SUMIF & SUMIFS
- 4) AND OR FUNCTIONS
- 5) COUNT COUNTA
- 6) MIN MAX AVERAGE
- 7) CONCATINATE
- 8) UPPER LOWER PROPER SUBSTITUTE REPT TEXT FUNCTION
- 9) FIND & SEARCH EXACT
- 10) TODAY NOW

12. Name of the Course: 30- Hour Add-on Certificate Course on Web Designing (2021-22)

Course Brochure

Course Name :- Web Designing [Course duration: 27.2.2022 to 29.5.2022]

P. N. DAS COLLEGE
In collaboration with **RIGHT BRAINS TECHNOLOGY**

PSD to HTML Converting
Responsive Design

Web Designing Certificate Course in
Web Designing

Topics Covered

- Web Programming: HTML, JavaScript, JQUERY
- Web Editor: Adobe Dreamweaver
- Web Graphics: Adobe Photoshop

Why choose our Web Designing Course

- With our web designing course you can learn from the expert Web Designers who are experienced and up to date with the latest technology.
- We provide to-tech and professional training for Web Designing Course.
- Our Web Designing course content is based on what is being used in the industry.
- You get to learn from the very fundamentals of Web Designing.
- You would become an expert on advanced Responsive Web Designing, which has great demand in the industry.
- We provide proper individual attention to all our students.
- Our Web Designing is offered at very affordable cost.

Certificate in WEB DESIGN
DURATION : 30 HOURS
Total Course Fee : Rs. 2000/-

What this course for

- Create web design using HTML5 and CSS3
- Professional Edge and Business Design
- To generate the best Creative Design Ideas

1.30 p.m. to 2.00 p.m.	LUNCH
2.00 p.m. to 2.30 p.m.	PRESENTATION OF PAPERS
3.00 p.m. to 4.00 p.m.	VALEDICTORY SESSION
	INVITATION

Dear Members/Dr.
It is our pleasure to announce that the APC, P.N. Das College is going to organize a State Level Seminar on "Environmental Audit in Higher Educational Institutions: Framework and Implementations" on 29th August, 2019. The Program will be:
• Understanding the scope of Environmental Audit
• To understand the practice of Environmental Audit
• Role of Environmental Audit in Energy Audit
• Waste Management
• Efforts can be adopted for compliance of applicable environmental laws

OBJECTIVES

The introduction of environmental audit in educational institutions is to introduce the institutions to the concept of environmental audit and to make them aware of the scope and utility of the audit. To analyze the pattern and extent of resource use in the campus, to establish a baseline data to assess the present environmental status, to make the institutions environmentally more sensitive and to bring out a status report on environmental compliance.
As it is one of several assessments among all institutions, including students, through different awareness programmes, to this extent, we intend to organize a seminar on this issue.

The objectives of this seminar are:

- To shed light on the concept of environmental audit programme, the proper design and implementation of which can enhance an institution's environmental performance.
- Identification of energy resources through the collection of the sources of electricity energy.
- To develop techniques for waste management.
- Proposals to maintain good environmental health of the faculty members as well as the students.
- Assessment of compliance with regulatory requirements.
- Creating an eco-friendly institution in every aspect.

CALL FOR PAPERS

Those who wish to present their papers in the workshop need an abstract of the title words written in English, prepared with following (Three Times Roman, 12 font) to pnac@pndacollege.in, on or before 23rd August, 2019. The abstract must contain a self-explanatory title, full name of the author(s), affiliation and a short address. In case of multiple authors, please submit the following details: "Please mention '... Abstract Submitted' at the bottom of the cover".

Submission of full length paper:
The length of the full paper should not exceed 2000 words written in English, prepared with MS-Word/True Type Roman, 11 font, 1.5 point spaced.

Registration Process:
The participants can register through the url: www.pndacollege.in/Forms/RegistrationForm.aspx?Page=RegistrationForm.aspx

Spot registration is also acceptable.
Registration Fee: Rs. 200/-
Important Dates:

- Last date of receiving the abstract is 23rd August, 2019
- Notification of acceptance will be made by 23rd August, 2019
- Last date of receiving full paper (within 2000 words) is 28th August, 2019
- Contact: Dr. Sharmila Das: 9100002000 / Dr. Sharmila Das: 9100002000

Free online participation and kind cooperation is earnestly invited.

Abstract

Education is one of the significant instruments for overall development of any society. India has the third largest higher education system in the world, next to United States and China. The main governing body at the tertiary level is the University Grants Commission. There are approximately 564 universities (include State, Deemed to be University, Central Private University) approximately 19000 colleges spread across the country. India is a developing country and continuing to develop in the field of education. There are many challenges or problems in Indian higher education system, and also have lot of opportunities to deal with this problems and make education much better. An important task of higher education is to develop human resource. Education plays an important role in empowering women. Higher education encourages and empowers women to play vital role in social development as well as country. In case of higher education, women are facing personal and social problems which inhibit the progress of women in higher education. Great numbers of girls especially in rural areas drop-out before they reach higher education. Before understanding their potentials some burdens are imposed on them and as a result, drop-out rate increases. Women's empowerment can be strengthened through higher education. Higher education enables qualified women to become an ideal in society and motivates them to become a role model for other women. This paper highlights the problems in higher education faced by women in India and some suggestions to overcome these problems.

Key words: Higher Education, development, empowerment, problems

Introduction

"There is no chance of the welfare of the world unless the condition of women is improved. It is not possible for a bird to fly on one wing"... Swami Vivekananda

Education is required in every aspect of human life. Over time, the speed of communication has increased, and with it technological developments and innovations, people and society have been

Prof. Bonny Samanta

bring to cope with this unprecedented development. Today's education has evolved beyond mere rote mechanical methods and is moving towards the cultural and e-learning. These techniques in numerous systems to adapt for self-learning. Higher education in contemporary times forms and re-forms inspired the students to self-learning among students. The changing world is a constant topic of interest, especially in connection to higher education. The role of higher education is immensely complex and vital in today's world. College and university education is being influenced by the current situation. Education is the one and only powerful instrument of social change. Each and every sector of social development depends on human resources whose efficiency depends on the overall development of the education system.

The Indian higher education system is the third largest in the world, next only to that of the United States and China. According to the report of All India Survey Higher Education 2016-17, there were 364 universities, 6075 colleges and 11869 standalone institutions for AISEE (2016-17) and according to All India Survey of Higher Education 2017-18 there are 503 universities, 1516 Universities, Deemed to be Universities, Central Universities, Private Universities, 39033 colleges and 10011 standalone institutions (listed for AISEE 2017-18) in India. The main governing body in university level is University Grants Commission (UGC), which sets the standard for higher education, advises the government, and helps coordinate educational service and relations between the Centre and the State.

As per AISEE 2016-17, more of the colleges run only undergraduate level programme, only 2.8% of colleges run Ph.D. level programme and 36.7% of colleges run post graduate level programme. 59.54% colleges are located in rural area and only 8.3% colleges are exclusively for girls and according to AISEE 2017-18, 36.7% of colleges run post graduate programmes and 7.8% of colleges run Ph.D. level programme. 60.6% colleges are located in rural area and 11.04% colleges are exclusively for girls.

India is the second most populated country in the world, it has substantial human resources. In terms of social economic prosperity India possessing human resources act as a harbinger of progress. According to World Bank, India has the potential to become the human resource capital of the world. According to the gender statistics revealed by Census 2011, 52 percent of the population is male and nearly 48% female. The advancement of society is not possible by men alone, therefore the opportunities for women to come forward need to be searched, only then will the society develop and prosper. Women are not only constitute valuable human capital of the country, but their development in education and socio-economic field also sets the pace of strong economical growth of the country. The development of every aspect of the society will remain a distant dream if it neglects women's education. Women have played a major role in developing ideas and working towards a better future for the world. They have a reserved special recognition in all areas imaginable and the field of education is no exception. The problem is that women's population is still considered to be the second largest crisis of the country.

Women empowerment can be strengthening through higher education. Higher education empowers qualified women to become an agent of change and women's flow is become a role model for other young girls. It is a matter of great challenge to provide higher education to a girl in our country. In the past, girls were not allowed to study. Many obstacles in society stand in the way of progress. Over the years, the progress of women's education has substantially improved, but the barriers have not been completely eradicated. Although girls are now being enrolled in higher education but challenges hindering their progress still exist.

• Objectives

The objectives of the paper are as follows:

- To discuss the present condition of literacy in higher education of women.
- To identify the problems and challenges facing by women in higher education.
- Finding solution to overcome of these challenges.

• Methodology

This study is qualitative in nature, where data have been collected from secondary sources like various published records, reports, books and websites etc. The primary information were have been taken from All India Survey on Higher Education (AISEE), 2016-17 and 2017-18. The population data have been taken from Census 2011. And other data are taken from a statistical analysis of their marriage in India (based on Census, 2011), Report of Taskforce on Commission UGC (Consolidated list of Colleges and University).

• Finding

According to the objective of the study findings are discuss below:

- To discuss the present condition of literacy in higher education of women.

Table 1. Literacy Rate

• To identify the problem and challenge facing by women in higher education

• Challenge:

Women are facing many challenges in higher education, such as gender disparity, conservative mindset, social harassment, lack of parental awareness, poor economic condition, weak marriage, lack of responsibility of household, lack of transportation, lack of women college, discrimination in rural and other backward areas etc.

• Gender disparity:

Gender inequality in higher education is a persistent problem in the Indian society. The gender of people inequality in India starts to even from the education, employment, opportunities, health, status, status, social status, economical status etc. Inequality is more in higher education than in other economic inequalities in the society, which in turn, awareness in women in higher education result in inequality in access to labor market, resulting in inequality in earnings, contributing in turn to socio-economic and political inequalities (Kand and Sun, 2017). The female access to higher education is lower in India. The enrollment of more is higher than that of women. Over the past decades, gender disparity has declined at various levels of education in India but it seems to be further [37]. A progressive change in social attitude can bring about positive changes in higher education.

• A conservative attitude towards the higher education of women

The present working women, by observing social changes and economic developments in different fields like scientific, social, cultural, in other advancement, communication technology, etc. are unfortunately are little changes are seen in the conservative mindset of people. Although India is a developing society, women are still facing criticism of dress-code, appearance, etc. with the people with conservative mindset people create many accept women's education in education. In the name of tradition support the burden of population by women, and it affects their job security as well as physically. Subjected to this rigidity and deeply adhered to a conservative attitude toward to studies than that of the men and higher education [38].

• Lack of marriage

Every marriage often comes the end of education for girls. It is not always true that girls drop out of schools or higher educational institutions because such educational institutions are inaccessible or expensive. In those cases, there is lack of parental awareness, some parents are unable to manage it for their expense for their daughter. Before completion of the stage of specialty education, some girls are forced to marry, which is very painful as to be the pressure and influence of conservative that belong to. Unfortunately, there are quite a few parents of unmarried girls, may lack to educational systems, as a result, as far as higher education is concerned, their girls to progress become increasingly difficult and challenging.

• Lack of transport facilities

Women in rural, tribal, hilly and remote areas women in India face more problems in accessing educational institutions. Due to a very limited access to transport services, it is difficult for women to go for work to study. For the convenience of transport facility, there are often forced to discriminate their study. In urban area it has become an obstacle to the education of some girls, the public transport facilities, overcrowded public transport, unclean public, growing number of accidents and fatalities etc. If educational institutions are not available nearby, traveling to a college may become more obstacle.

• Several lacunae in industry offering higher education

It was advised by the Ministry of Human Resource Development to the Lok Sabha in March 2018, that rates of annual lacunae cases in various higher educational institutions have increased 50% in the 2018-17 academic session from the 2017-18 academic session [39]. Prevention of several lacunae in colleges and other institutions of higher education is an utmost priority, even this needs to be addressed urgently. The University Grants Commission initiated India's first gender equity regulations (Prevention, prohibition and redressal of sexual harassment of women employees and students in higher educational institutions, Regulation, 2017). This regulation describes the responsibilities of higher educational institutions. This act is

discriminate against all gender based violence perpetrated against employees and students of all sexes, recognizing that primarily women employees and students, some male students and members of their family are vulnerable to many forms of sexual harassment and discrimination and exploitation [24].

Only who are actually harassed in higher education, parents, they do not want to attend the educational institute due to fear of harassment, bullying and sometimes may leave their studies for the reason. Some kinds of behavior towards a girl disrupt her physical and mental state and also, frustration and depression, which create obstacle to her progress in education.

• Parental attitude towards girl's higher education

There is one parent who matters to be about higher education. These parents who have assumed better education are more energetic. They understand the value of education regarding the success of higher education for females in a society that has its centuries, balanced patriarchal values and traditions. Such parents are characterized by a more positive attitude towards education, on the other hand in rural and other remote areas people like are less educated, and have negative attitude, pressure comes from adopting higher education. Educated parents do not discriminate between sons and daughters. They do not subscribe blindly to patriarchal values and social norms that considered women to be inferior to men. On the contrary, they believe in gender equality, which goes a long way in securing the future of the country.

• Lack of responsibility of household

Traditionally it is expected that a man will bear the most of the responsibility in the family. The burden of professional responsibility is imposed on girls especially in urban families pursuing higher education because an obstacle for girls - even if it is possible for women to pursue higher education, they have not. Still more for those who after passing the needs of the family.

• Lack of girl's College especially in rural and tribal areas

The number of women's higher educational institutions (colleges) for women is much less compared to those institutions which are required to promote and facilitate education among men students. Therefore in many cases, particularly in remote areas, village or rural area, long distance to reach the educational institutions. But are either private institute or are under no control for time. They people are still not comfortable with the idea of co-education institutions and accepting the concept as socially detrimental and even women socially degenerate. They think that corruption is found in school where both girls and boys are mixed together in the same institution, or they do not agree to send their daughter in co-education institutions [14].

• Economic problem

A serious major issue in higher education is economic problem. Most of the people in India are either poor or belong to the middle class. They work hard to meet the basic needs of their families. Spending money to provide higher education to their children becomes a problem for them. Despite having a positive attitude toward higher education of their girl child, they are often helpless and unable to provide higher education to their daughter owing to financial constraints.

• Forced labor

Forced labor can be understood as work that is performed in voluntary and under the menace and pressure. It refers to a situation where a person are forced to work through the use of violence or intimidation, or by some subtle means such as accumulated debt, retention of identity papers or forms of documentation to manipulate vulnerability [21].

According to the International Labour Organization's Forced Labour Convention, 1930 (No. 29), there is compulsory labor if "all work of service which is exacted from a person under the threat of a penalty and for which the person has not offered himself in voluntary" [24].

Forced labor may be imposed on adults, children and women by such industries, to private enterprises or by individual parents. It is seen in all types of economic sectors, such as brick-making, construction, agriculture, manufacturing, sexual exploitation, forest logging etc. and in many countries [20].

Some girls from poor families are often forced to participate in compulsory labor. Sometimes they are unable to complete or continue their education and that to affect their work with education.

• Find out the solution to overcome the problem

In order to increase the number of enrollment of girl students, students and parents have to be motivated in higher educational institutions.

- Increase number of female teachers in educational institutions (Changshui/Nah, 2016).
- Increase number of colleges and universities, so that women can enroll in higher education and help them to complete their higher studies.
- Parents should be more aware of the participation in higher education of their girl child.
- Provide counseling for parents, offer health services and girls from the necessary stage of education (Changshui/Nah, 2016).
- The transport facilities need to improve in rural and tribal areas (Changshui/Nah, 2016).
- Promote awareness need to be generated and implemented for women to free with social and outside of their institutions.
- Introduce special scholarship for underprivileged poor and economically disadvantaged to pursue higher education.

Abstract

During the unprecedented COVID-19 pandemic a large proportion of elderly people, with comorbidities diseases have to be pay death toll and economic health might face a definite change by the modified pace of demographic transition. The present study systematically identifies the relative importance of factors related to survival of elderly people residing inside and outside old-age home, during COVID-19 lockdown. The Survival of elderly people are indexed as Modified Survival Index (SI) based using primary information on physical and mental attributes from 200 elderly respondents in North 24 Parganas (100 each residing inside and outside old-age home) through a structured phone call survey during COVID-19 pandemic. A comparative survival picture of elderly in West Bengal, India has shown that due to COVID-19 pandemic protocol and lockdown the survival process of elderly has depicted and broadly worse for elderly residing inside old-age home. Along with the deterioration of physical quality, mental health quality of elderly has corroded significantly due to social distancing protocol and COVID-19 pandemic lockdown. Effort made from NGOs and local govt. towards elderly is very insufficient and hence health inequality with comorbidities during pandemic has increased a lot. Among all subgroup variables present such economic condition has the highest importance for both the inside and outside old-age people. The standard of living of elderly during pandemic has suffered much by non-availability of required medical services and food security. Elderly lived with family could engage with social gathering and different rehabilitation program in their daily non-normal life. Thus, mental health quality has eroded by prolonged loneliness combined with increased frustration due to social distancing protocol in old-age home in the greater extent. The survival challenge of elderly has become largely worse compare to pre-pandemic situation mainly due to unavailability of healthcare, prescribed food and supplements, problem in receiving pension/benefits, social distancing protocol, lesser social associations with reliable social institutions, due to deterioration and medicines supply, govt and COVID-19 health check-up etc. under public control could make the survival process of elderly easy during the COVID-19 pandemic.

Landuse Pattern Change in North Dum Dum Municipality from 2001 to 2016

Debaroti Das, P.N. Das College, P.N. Das College, P.N. Das College

Abstract

North Dum Dum Municipality (NDM) is a growing municipality in the east suburbs of Kolkata. It has been established in the year 1972 covering an area of 19.80 km² comprising villages, hamlets, and urban areas. The present study is an attempt to study the land use pattern change in NDM from 2001 to 2016. The study area is divided into 10 zones. The land use pattern change is studied with the help of aerial photographs and satellite data. The study area is divided into 10 zones. The land use pattern change is studied with the help of aerial photographs and satellite data. The study area is divided into 10 zones. The land use pattern change is studied with the help of aerial photographs and satellite data.

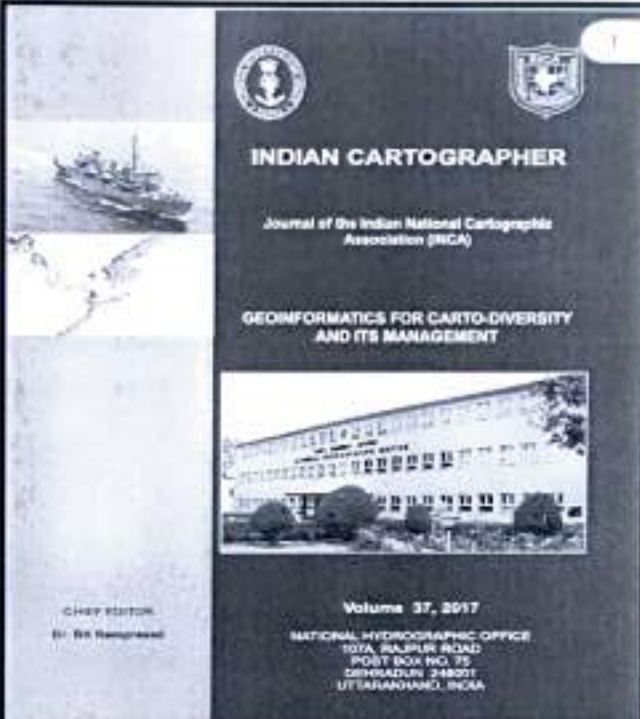

Keywords: Land use pattern change, North Dum Dum Municipality, Remote Sensing, GIS.

SOME PROPERTIES OF A FUNCTION CONNECTING TO EXPONENT OF CONVERGENCE FOR DOUBLE SEQUENCES

D. K. GANGULY, B. BISWAS AND ALAUDDIN DAFADAR

Abstract. In this paper, we extend the notion of exponent of convergence for double sequences and study some properties of a function connecting with a non-decreasing double sequence in a Fréchet metric space.

1. Introduction

Let $\{a_n\}$ be a non-decreasing sequence of positive real numbers with $\lim_{n \rightarrow \infty} a_n = \infty$. It is well known [1] that there exists a unique number $\lambda = \lambda(\{a_n\}) = \lambda(\lambda) > 0$ such that $\sum_{n=1}^{\infty} a_n^{-\sigma} < \infty$ for each $\sigma > \lambda$ and $\sum_{n=1}^{\infty} a_n^{-\sigma} = \infty$ for each $\sigma < \lambda$.

The number $\lambda = \lambda(\lambda)$ is called the exponent of convergence of the sequence $\{a_n\}$. It is represented by

$$\lambda(\lambda) = \inf \left\{ \sigma > 0 : \sum_{n=1}^{\infty} a_n^{-\sigma} < \infty \right\}.$$

It is also known [2] that

$$\lambda(\lambda) = \limsup_{n \rightarrow \infty} \frac{\log n}{\log a_n}.$$

Several authors (see [3], [4], [5], [6]) followed this studies on exponent of convergence from different points of view. In this context, Kopytko and Šolín [7] explored some interesting results on exponent of convergence of real sequences. They investigated the exponent of convergence as a real valued function defined on the set \mathcal{D} of all non-decreasing sequence $\{a_n\}$ of real numbers with the property $a_n > 0$ endowed with Fréchet metric defined by

$$\rho(x, y) = \sum_{k=1}^{\infty} \frac{1}{2^k} \frac{|x_k - y_k|}{1 + |x_k - y_k|}$$

where $x = \{x_k\}$, and $y = \{y_k\}$ are any two elements of \mathcal{D} .

D. K. GANGULY, B. BISWAS AND A. DAFADAR

Our aim in this paper is to extend the concept of exponent of convergence for double sequences of real numbers. During the last century, various problems concerning to the convergence and divergence of double sequences were treated by a number of mathematicians (see [8], [9], [10], [11], [12], [13]). Here first we give formalism for the exponent of convergence of double sequences which is analogous to the case of single sequences and then we prove some properties on exponent of convergence for the double sequences.

DEFINITION 1. [1] A double sequence $\{a_{mn}\}$ is said to be monotonically increasing (decreasing) if $a_{mn} \leq a_{pq}$ ($a_{mn} \geq a_{pq}$) holds if $(m, n) < (p, q)$, $m < p$ and $n < q$ under the partial ordering " $<$ " on the set $\mathbb{N} \times \mathbb{N}$, where \mathbb{N} is the set of positive integers.

DEFINITION 2. [1] A double sequence $\{a_{mn}\}$ of real numbers is said converge to the number ξ if for each $\epsilon > 0$ there exists $(p, q) \in \mathbb{N} \times \mathbb{N}$ such that $|a_{mn} - \xi| < \epsilon$ for $(m, n) > (p, q)$ and it is written as $\lim_{m, n \rightarrow \infty} a_{mn} = \xi$.

DEFINITION 3. [1] A double series $\sum_{m, n=1}^{\infty} a_{mn}$ of real numbers is said to converge to ξ in Pringsheim sense if $\lim_{m, n \rightarrow \infty} s_{mn} = \xi$, where $s_{mn} = \sum_{k=1}^m \sum_{l=1}^n a_{kl}$ is the partial sum of the double series.

Let \mathcal{D} denote the set of real non-decreasing double sequences $\{a_{mn}\}$ with $a_{11} > 1$, endowed with Fréchet metric defined by $\rho(x, y) = \sum_{k=1}^{\infty} \frac{1}{2^k} \frac{|x_k - y_k|}{1 + |x_k - y_k|}$, where $x = \{x_k\}_{k \in \mathbb{N} \times \mathbb{N}}$, $y = \{y_k\}_{k \in \mathbb{N} \times \mathbb{N}}$ are points of \mathcal{D} .

It is clear that, the set \mathcal{D} of all real double sequences with Fréchet metric is a complete metric space. The convergence in this space is taken as co-ordinate wise convergence in Pringsheim sense.

In the following we establish some properties of the space (\mathcal{D}, ρ) .

THEOREM 1. If \mathcal{S}_1 is the collection of all non-decreasing sequences $\{a_{mn}\}$ of real numbers diverging $m, n \rightarrow \infty$ with $a_{11} > 1$ then the space (\mathcal{S}_1, ρ) is not a complete metric space.

Proof. We consider a sequence $\{x^{(n)}\}_{n \in \mathbb{N}}$ of elements from \mathcal{S}_1 , where $x^{(n)} = \{a_{mn}\}_{m, n \in \mathbb{N}}$ and

$$a_{mn} = \begin{cases} 1 + \frac{1}{n} & \text{when } (m, n) = (1, 1) \\ m + n & \text{otherwise} \end{cases}$$

If $\{x^{(n)}\}_{n \in \mathbb{N}}$ converges to $x = \{a_{mn}\}$ then $a_{11} = 1$, since the space \mathcal{D} with the point wise convergence. Clearly, $x \notin \mathcal{S}_1$ and consequently (\mathcal{S}_1, ρ) is not complete. \square

P. N. Das College
Palta, Bengal Estabed, N. 24 Pgs

DEFINITION 2. If T is the collection of all non-decreasing sequences $\{a_{mn}\}$ of real numbers diverging to $+\infty$ with $a_{11} = 1$, then T is said to be *closed* if

Proof. Clearly, T is a closed subset of \mathbb{R} so it suffices to prove that the complement of T in \mathbb{R} is dense in \mathbb{R} .

Let $a = \{a_{mn}\} \notin T$. We consider an open ball $B(a, \delta) = B$ with centre a and radius δ .

If $a_{11} = 1$, then $a \in T$ and $B \cap T \neq \emptyset$ and the result is proved.

Let $a_{11} < 1$. Since $\{a_{mn}\}$ is non-decreasing and diverges to $+\infty$, there exists positive integer k and l for which $1 < k$ is least such that $a_{kl} > 1$.

For $\delta > 0$, we can choose a real number $\epsilon > 0$ such that $1/\epsilon > \delta$. Agree for m, n with $0 < \epsilon < 1/\epsilon$, we have $1/\epsilon < a_{mn} < 1/\epsilon + \delta$.

We consider a sequence $b = \{b_{mn}\}$ such that

$$b_{mn} = \begin{cases} 1/\epsilon & \text{when } (m, n) \in B \\ a_{mn} & \text{otherwise} \end{cases}$$

Since $b_{11} = 1$, then $b \in T$ and

$$|b_{mn} - a_{mn}| = \begin{cases} |1/\epsilon - a_{mn}| & \text{when } (m, n) \in B \\ 0 & \text{otherwise} \end{cases} < \delta$$

Then, clearly $b \in B$, $B \cap T \neq \emptyset$ and thus $B \cap T$ is dense in B . Therefore, T is nowhere dense in \mathbb{R} . \square

THEOREM 3. The set (\mathbb{R}, ρ) is a complete metric space and has the cardinality of continuum.

Proof. To prove the theorem, we show that the set \mathbb{R} is a perfect subset in (\mathbb{R}, ρ) .

Let $\{x^i\}_{i=1}^{\infty}$ be any sequence in \mathbb{R} where $x^i = \{a_{mn}^i\}$ and $i = 1, 2, \dots$

If $x^i \rightarrow x^j = \{a_{mn}^j\}$ and then, $x^i \rightarrow x^j$ readily follows from the point-wise convergence in Propositions above for double sequence with respect to the Fréchet metric. Hence, \mathbb{R} is closed.

We now show that the set \mathbb{R} is dense in \mathbb{R} and

We take any point $a = \{a_{mn}\} \in \mathbb{R}$. We have to find a sequence $\{x^i\}_{i=1}^{\infty}$ from \mathbb{R} such that $\lim_{i \rightarrow \infty} x^i = a$.

We consider the sequence $\{x^i\}_{i=1}^{\infty}$ as follows:

$$x^i = \begin{cases} a_{mn} & \text{for } (m, n) \in B(i) \\ a_{mn} + 1 & \text{otherwise} \end{cases}$$

Proof. It is well known that the set of points of discontinuity of a function belonging to the Baire class one is a set of first category ([1]). As the function λ is really discontinuous on \mathbb{R} , it can not belong to Baire class one. \square

THEOREM 3. For each real number d , the sets $A^d = \{x \in \mathbb{R} : \lambda(x) < d\}$ and $A_d = \{x \in \mathbb{R} : \lambda(x) > d\}$ belong to the third additive Borel class.

Proof. First we investigate for the set A^d .

If $d \leq 0$, then clearly $A^d = \emptyset$ (null set) and the above result is true.

Let $d > 0$. Then, we have $A^d = \{x \in \mathbb{R} : \lambda(x) < d\}$. So, there exists δ such $0 < \delta < d$ for which

$$A^d = \left\{ x \in \mathbb{R} : \sum_{m=1}^{\infty} \sum_{n=1}^{\infty} a_{mn}^x < \delta \right\} \\ = \bigcup_{\sigma > 0} \left\{ x \in \mathbb{R} : \sum_{m=1}^{\sigma} \sum_{n=1}^{\sigma} a_{mn}^x < \delta \right\},$$

where δ_0 is the smallest positive integer for which $\delta - \frac{1}{2} > 0$. So, let $\delta > \delta_0$.

We set $M_{\sigma} = \left\{ x \in \mathbb{R} : \sum_{m=1}^{\sigma} \sum_{n=1}^{\sigma} a_{mn}^x < \delta \right\}$ where $\sigma = \delta - \frac{1}{2}$ ($\sigma = \delta_0, \delta_0 + 1, \dots$).

$\delta_0 > 2$.

Since $\sum_{m=1}^{\sigma} \sum_{n=1}^{\sigma} a_{mn}^x < \delta$ for $\sigma = \delta - \frac{1}{2}$ ($\sigma = \delta_0, \delta_0 + 1, \delta_0 + 2, \dots$) due to

Cauchy's theorem for convergence of double series of real terms, for each positive integer i , there exists $(m, n) \in \mathbb{N} \times \mathbb{N}$ such that

$$\sum_{m=1}^i \sum_{n=1}^i a_{mn}^x < \delta \quad \text{for } i = 1, 2, \dots$$

Then

$$M_{\sigma} = \bigcap_{i=1}^{\infty} \bigcup_{j=1}^{\infty} \bigcup_{k=1}^{\infty} \bigcap_{l=1}^{\infty} \left\{ x \in \mathbb{R} : \sum_{m=1}^i \sum_{n=1}^i a_{mn}^x < \frac{1}{j} \right\} \\ = \bigcap_{i=1}^{\infty} \bigcup_{j=1}^{\infty} \bigcup_{k=1}^{\infty} M_{i,j,k}$$

where $M_{i,j,k} = \left\{ x \in \mathbb{R} : \sum_{m=1}^i \sum_{n=1}^i a_{mn}^x < \frac{1}{j} \right\}$

For fixed i, j, k, p , we prove that $M_{i,j,k}$ is a closed set.

This follows immediately from point-wise convergence of double sequence in Propositions above.

We take any sequence $\{x^i\}_{i=1}^{\infty}$ in $M_{i,j,k}$ where $x^i = \{a_{mn}^i\}$, $i = 1, 2, \dots$ and $\lim_{i \rightarrow \infty} x^i = x$ where $x = \{a_{mn}^x\}$.

It is clear that $\lim_{i \rightarrow \infty} x^i = x$.

Hence, x is a perfect set in (\mathbb{R}, ρ) and thus, x has the cardinality of continuum and consequently the space (\mathbb{R}, ρ) is complete being a subspace of continuous.

1. Exponent of convergence

Let $A = \{a_{mn}\}$, $a_{mn} > 1$ be a non-decreasing double sequence of real numbers. If $\sigma > 1$, then the convergence of the series $\sum_{m=1}^{\infty} \sum_{n=1}^{\infty} a_{mn}^{-\sigma}$ implies the convergence of the series

$$\sum_{m=1}^{\infty} \sum_{n=1}^{\infty} a_{mn}^{-1}$$

So, $\lambda(A)$ of the double sequence A is defined

$$\lambda(A) = \inf \left\{ \sigma > 0 : \sum_{m=1}^{\infty} \sum_{n=1}^{\infty} a_{mn}^{-\sigma} < \infty \right\}$$

Then, λ is a function from \mathbb{R} to $(0, \infty)$.

The following result gives an alternative form for calculation of the exponent of convergence of double sequences under certain assumptions and it can be verified easily.

RESULT 1. If $\{a_{mn}\}$, $a_{mn} > 1$ be a non-decreasing double sequence of real numbers, then the exponent of convergence of the double sequence $\{a_{mn}\}$ is equal to the number $\limsup_{m \rightarrow \infty} \frac{\log(m)}{\log(m) + \log(n)}$.

We now mention some topological properties of the function λ .

THEOREM 4. For any non-negative real number ϵ there exists some $\delta > 0$ such that $\lambda(x) < \delta$ and

Proof. Case 1. Let $\epsilon > 0$. We choose $\delta = \{a_{mn}\}$ where $a_{mn} = (m+n)^{\epsilon}$. Then,

$$\lambda(x) = \limsup_{m \rightarrow \infty} \frac{\log(m)}{\log(m) + \log(n)} = \limsup_{m \rightarrow \infty} \frac{1}{m+n} = 0$$

Case 2. Let $\epsilon > 0$. Then, there exists a positive integer k such that $(m+n)^k < \delta$ for the positive integers m and n . Hence, we choose $\delta = \{a_{mn}\}$ where $a_{mn} = (m+n)^k + k$. Then,

$$\lambda(x) = \limsup_{m \rightarrow \infty} \frac{\log(m)}{\log(m) + \log(n)} = \limsup_{m \rightarrow \infty} \frac{1}{m+n+k} = 0$$

COROLLARY 1. The function $\lambda : \mathbb{R} \rightarrow (0, \infty)$ does not belong to Baire class one.

Then, $\lim_{m \rightarrow \infty} (a_{mn})^{1/m} = a_{11}^{-1/\sigma}$, for all $(m, n) \in \mathbb{N} \times \mathbb{N}$.

Hence, $a \in M_{\limsup}$. Consequently, each of the sets M_{\limsup} is closed.

So, it follows that $A^d = \left\{ x \in \mathbb{R} : \lambda(x) < d \right\} = \bigcap_{\sigma > d} \bigcup_{\tau > \sigma} \bigcap_{\rho > \tau} M_{\limsup}$ is an $F_{\sigma\delta}$ set in \mathbb{R} and therefore, A^d belongs to the third additive Borel class.

We now investigate the set A_d .

If $d \leq 0$, then $A_d = \mathbb{R}$ and the result is proved.

Let $d > 0$, then there exists a positive integer k such that

$$A_d = \left\{ x \in \mathbb{R} : \lambda(x) > d \right\} = \bigcup_{\sigma > d} \left\{ x \in \mathbb{R} : \sum_{m=1}^{\sigma} \sum_{n=1}^{\sigma} a_{mn}^x > \sigma \right\}$$

We set $L_{\sigma} = \left\{ x \in \mathbb{R} : \sum_{m=1}^{\sigma} \sum_{n=1}^{\sigma} a_{mn}^x > \sigma \right\}$ where $\sigma = d + \frac{1}{2}, d + 1, d + 1.5, \dots$

Then, for each $p \in \mathbb{N}$ there exists $q \in \mathbb{N}$ such that $\sum_{m=1}^q \sum_{n=1}^q a_{mn}^x > p$, for all $(m, n) \in \mathbb{N} \times \mathbb{N}$.

We now express the set L_{σ} as

$$L_{\sigma} = \bigcap_{p \in \mathbb{N}} \bigcup_{q \in \mathbb{N}} \bigcap_{r \in \mathbb{N}} \left\{ x \in \mathbb{R} : \sum_{m=1}^q \sum_{n=1}^q a_{mn}^x > p \right\} = \bigcap_{p \in \mathbb{N}} \bigcup_{q \in \mathbb{N}} \bigcap_{r \in \mathbb{N}} L_{i,j,k}$$

where $L_{i,j,k} = \left\{ x \in \mathbb{R} : \sum_{m=1}^i \sum_{n=1}^i a_{mn}^x > p \right\}$.

Analogously as in the foregoing part of the proof, we can verify that each of the sets $L_{i,j,k}$ is closed.

Hence, the set $A_d = \left\{ x \in \mathbb{R} : \lambda(x) > d \right\} = \bigcup_{\sigma > d} \bigcap_{\tau > \sigma} \bigcap_{\rho > \tau} L_{i,j,k}$ is an $F_{\sigma\delta}$ set and therefore A_d belongs to the third additive Borel class. \square

COROLLARY 2. The function $\lambda : \mathbb{R} \rightarrow (0, \infty)$ is a measurable function.

THEOREM 5. For every real number d , each set $A^d = \left\{ x \in \mathbb{R} : \lambda(x) < d \right\}$ is of first category in \mathbb{R} .

Proof. By virtue of the above theorem, we can write

$$A^d = \bigcup_{\sigma > d} \bigcap_{\tau > \sigma} \bigcap_{\rho > \tau} M_{\limsup} = \bigcup_{\sigma > d} M_{\sigma}$$

where $M_{\sigma} = \bigcap_{i=1}^{\infty} \bigcup_{j=1}^{\infty} \bigcap_{k=1}^{\infty} \left\{ x \in \mathbb{R} : \sum_{m=1}^i \sum_{n=1}^i a_{mn}^x < \frac{1}{j} \right\}$

We first prove that, each of the sets M_{σ} is of first category in \mathbb{R} . For this it is sufficient to show that M_{σ} is an F_{σ} set whose complement is dense in \mathbb{R} .

Let $\{x_{mn}\}_{m,n \in \mathbb{N}} \in \mathcal{I}$. For given $\epsilon > 0$, let r be smaller positive integer such that $\sum_{k=1}^r \frac{1}{k} > \frac{1}{\epsilon}$. Take $\delta = \frac{\epsilon}{\sum_{k=1}^r \frac{1}{k}}$ where $\delta < \frac{\epsilon}{2}$.

We now construct a sequence $\{x_{mn}\}_{m,n \in \mathbb{N}} \in \mathcal{I}$ as follows:

Let $x_{mn} = 1$ for $m = 1, 2, \dots, r$ and $n \in \mathbb{N}$.

If $x_{mn} < (1 + \epsilon)^n$, then put $x_{mn} = (m)^n$ for all (m, n) when $(m, n) \notin (r, 1)$.

If $x_{mn} > (1 + \epsilon)^n$, then put $x_{mn} = \delta$ for $m = r+1, r+2, \dots, (r+n) + (r-1)$, \mathbb{N} where r is the smallest positive integer for which $r^2 > \frac{1}{\epsilon}$ and $x_{mn} = (m)^n$ for all (m, n) when $(m, n) \notin (r, 1) \cup (r, 1)$.

It is clear that $\delta < \frac{\epsilon}{2}$.

Again, there is a positive integer r for which

$$x_{mn} = (m)^n \text{ for } m = r+1, \dots, (r+n) + (r-1).$$

Then there exist $q > 0$, such that for all $(m, n) \in \mathbb{N} \times \mathbb{N}$ with $m > r$ and $n > q$ we have

$$\sum_{j=1}^m \sum_{k=1}^n \frac{1}{j^k} < \frac{1}{\delta} \quad \sum_{j=1}^m \sum_{k=1}^n \frac{1}{j^k} < \frac{1}{\delta} \quad \sum_{j=1}^m \sum_{k=1}^n \frac{1}{j^k} < \frac{1}{\delta}$$

Since the series $\sum_{j=1}^m \sum_{k=1}^n \frac{1}{j^k}$ is divergent, thus δ belong to the complement of \mathcal{N}_0 . Therefore, the complement of \mathcal{N}_0 is dense in \mathcal{I} .

Also each of the sets $\mathcal{N}_{\delta, \epsilon}$ is closed. Hence $\mathcal{N}_0 = \bigcup_{\delta \in \mathcal{I}} \bigcap_{\epsilon \in \mathcal{I}} \mathcal{N}_{\delta, \epsilon}$ is an F_σ set. Thus, each of the sets \mathcal{N}_0 is of first category in \mathcal{I} and consequently $\mathcal{I} \setminus \bigcup_{\delta \in \mathcal{I}} \bigcap_{\epsilon \in \mathcal{I}} \mathcal{N}_{\delta, \epsilon}$ is of first category. \square

THEOREM 7. The set $\{x \in \mathcal{I} : \hat{A}(x) = 0\}$ is residual in \mathcal{I} .

Proof. By Theorem 6, the set $\{x \in \mathcal{I} : \hat{A}(x) = 0\} = \bigcup_{\delta \in \mathcal{I}} \{x \in \mathcal{I} : \hat{A}(x) = 0\}$ is of first category in \mathcal{I} and also the space \mathcal{I} is complete. Hence, the set $\{x \in \mathcal{I} : \hat{A}(x) = 0\}$ is residual in \mathcal{I} . \square

THEOREM 8. For $\epsilon > 0$, the set $A = \{x \in \mathcal{I} : \hat{A}(x) < \epsilon\}$ is dense in \mathcal{I} .

Proof. Let $\{x_{mn}\}_{m,n \in \mathbb{N}}$ be any point in \mathcal{I} . Let us choose $r > 0$ and $(r, 1) \in \mathbb{N} \times \mathbb{N}$ such that $\sum_{k=1}^r \frac{1}{k} > \frac{1}{\epsilon}$.

We choose $(n+1) < \mathbb{N} \times \mathbb{N}$ such that for every $(m, n) \in \mathbb{N} \times \mathbb{N}$ with $(m, n) > (r, 1)$ we have $\sum_{k=1}^m \sum_{j=1}^n \frac{1}{j^k} > \frac{1}{\delta} > \frac{1}{\epsilon}$ and hence $\sum_{k=1}^m \sum_{j=1}^n \frac{1}{j^k} > \frac{1}{\delta} > \frac{1}{\epsilon}$.

Define a sequence $\{x_{mn}\}_{m,n \in \mathbb{N}}$ such that

$$x_{mn} = \begin{cases} x_{mn} & \text{for } (m, n) \in (r, 1), \\ \sum_{k=1}^m \sum_{j=1}^n \frac{1}{j^k} & \text{for all } (m, n), \text{ where } (m, n) \notin (r, 1). \end{cases}$$

Then clearly $\{x_{mn}\}_{m,n \in \mathbb{N}} \in \mathcal{I}$ and

$$\hat{A}(x) = \limsup_{m \rightarrow \infty} \frac{\sum_{n=1}^m x_{mn}}{m} = \frac{1}{\delta} < \frac{1}{\epsilon}.$$

So, $\{x_{mn}\}_{m,n \in \mathbb{N}} \in A$ and consequently $\hat{A}(x) < \frac{1}{\epsilon}$ for arbitrary $\epsilon > 0$. Hence, A is dense in \mathcal{I} . \square

THEOREM 9. The function $\hat{A} : \mathcal{I} \rightarrow \mathbb{R}^+$ is totally discontinuous in \mathcal{I} .

Proof. Let $x = \{x_{mn}\}_{m,n \in \mathbb{N}}$ be any point in \mathcal{I} . We take a double sequence $\{y_{mn}\}_{m,n \in \mathbb{N}}$ with $y_{mn} = 0$ and $\hat{A}(y) = \frac{1}{2}$. Then

$$\hat{A}(x) = \limsup_{m \rightarrow \infty} \frac{\sum_{n=1}^m x_{mn}}{m} > \frac{1}{2} = \hat{A}(x+y).$$

We now construct a sequence $\{x^{(j)}\}_{j \in \mathbb{N}}$ as follows:

$$x^{(j)}_{mn} = x_{mn} \text{ for } m = 1, 2, \dots, j-1, 2, 3, \dots$$

If $\sum_{k=1}^m \sum_{j=1}^n \frac{1}{j^k} > x_{mn}$, then we take $x^{(j)}_{mn} = (m)^n$ for all (m, n) when $(m, n) \notin (j-1, 1)$.

If $\sum_{k=1}^m \sum_{j=1}^n \frac{1}{j^k} < x_{mn}$, then we take $x^{(j)}_{mn} = x_{mn}$ for $m = j+1, j+2, \dots, j+2, m, j+1, j+2, \dots, j-1$, where j is the least positive integer for that $\sum_{k=1}^m \sum_{j=1}^n \frac{1}{j^k} > x_{mn}$ and we set $x^{(j)}_{mn} = (m)^n$ for all (m, n) when $(m, n) \notin (j-1, j-1)$.

It is clear that, the elements of the sequence $\{x^{(j)}\}_{j \in \mathbb{N}}$ belong to \mathcal{I} and $\lim_{j \rightarrow \infty} x^{(j)} = x$.

Then, $\hat{A}(x^{(j)}) = \frac{1}{2}$ for $j = 1, 2, 3, \dots$ and hence $\lim_{j \rightarrow \infty} \hat{A}(x^{(j)}) = \frac{1}{2} < \hat{A}(x)$. \square

PROCESSES AND PATTERN OF URBANIZATION IN NORTH 24 PARGANAS DISTRICT, WEST BENGAL

Chandan Sarkar* and Uma Sankar Malik**

Urbanization is now a worldwide phenomenon. Urbanization, socio-economic development and industrialization are interlinked to each other. North 24 Parganas district is high urbanized district of west Bengal. The rate of urban growth and urbanization are rather very match with the support of infrastructure. Urbanization in terms of urban population, urban spacing, urban centers and infrastructural development are quite satisfactory with compare to west Bengal as well as India. This paper analyze an over view of urbanization in the district since the independence period. Firstly discuss urban growth in terms of population, area and urban center. Secondly also discuss about the all types of urban areas like out growth, census town, cantonment board, municipality etc. Thirdly discuss the level of urbanization in the district. Then the paper presents the main features of urbanization for last sixty years, mainly on the basis of census data, other secondary data and perception.

INTRODUCTION

Urbanization is a complex process of population concentration and concomitant impact on population structure, population composition, economic activities, social matrices and way of living of people in a new developed situation. The urbanization processes is very much dependent on the economy of the area or vice-versa. Under different situation different urban pattern are emerging out of multiplicity of urbanization processes. Urbanization is an index of transformation from traditional rural economies to modern industrial one. It is progressive concentration (Davis, 1965) of population in urban unit. Quantification of urbanization is very difficult. It is a long term process. Kingsley Davis has explained urbanization as process (Davis, 1962) of switch from spread out pattern of human settlement to one concentration in urban centers. It is finite process- a cycle through which a nation pass as they evolve from agrarian to industrial society (Davis and Golden, 1954). Urbanization level is an important concept that involves continuous change within the urban area itself in terms of urban growth, urbanization, urban problems and expansion of town boundaries. Urban growth occurs through natural increase coupled with migration from other areas. Urbanization is a process by which urban percent increases with concomitant socio-economic development. It is a manifestation of social ecological development and changes in the economic and political order of the nation itself. As a nucleus of economic and commercial hub, it is generally an area of high population density. In a Third World country like ours, the towns and cities are associated with deficient infrastructure, inadequate civic amenities and services, huge unemployment, random growth of slums, sprawls and squatters, vanishing urban greens, water logging, pollution and related health hazards, and so on.

*Ph.D. Research Scholar, Department Of Geography, Visva- Bharati, Santiniketan, West Bengal, India.

**Professor, Department Of Geography, Visva- Bharati, Santiniketan, West Bengal, India.

As a student of geography, the current researcher intends to explore urban growth and urbanization in order to find a gateway to the development through smart growth and green urbanization. There is still enough scope for urban development by setting up new urban centers and rebuilding the older ones with new eco-friendly technologies.

Geographers use term urbanization more commonly to a process of transformation. Lampard suggests that a distinction should be made between the three aspects of the process of urbanization, i.e., behavioral, structure and demographic aspects of urbanization process. Keeping in view the various aspects of urbanization, Riesman depicts urbanization as a process of change, when a society is transformed from an agrarian economy and small homogeneous society to an industrial economy and large heterogeneous mass. Or in other words urbanization is a territorial response to structural changes in the economy. Now day the city has been increasingly chosen as the spatial unit where the adequacy of political institution, performance of government agencies and effectiveness of programmes to combat social problems, to solve the environmental problems and to promote economic development has to be tested. Therefore, the level of urbanization is often equates level of development in

Palta, Bengal Enam, N. 24 Parg.

general. To formulate and to modify urban policies and programmes it is necessary to collect information on urban conditions and trends. Only then we can convert this information to knowledge for formulating and modifying urban policies and programmes. Therefore it has become essential to investigate the level of urbanization of North 24 Parganas. The present study is concerned with the historical aspect of the district's urbanization, its trend through time since independence and its present level of urbanization. Therefore the pattern of urbanization has become essential to measure the level of urbanization of North 24 Pgs. The present study has been analyzed the trend and patter of urbanization of the North 24 Pgs. District.

OBJECTIVES

The study aims highlighting the urban growth and development in North 24 Parganas district with following objectives.

- i) To study the basis of urbanization of the study area and the urban processes.
- ii) To study the pattern and trend of urban growth and urbanization the study area during post independence.
- iii) To study the problems of urbanization.
- iv) To study the level of urbanization in the district.

DATA BASE AND METHODOLOGY

The present study is based on the secondary data, has been collected from district census hand book, district statistical hand book and municipality in the district. This paper has been analyzed with both quantitative and qualitative techniques. First step has been analyzed the growth pattern of urban population, urban space, urban centre and urban size class distribution. Secondly analyzed level of urbanization in the district. Finally use Microsoft Office Excel 2007 for analysis the quantitative data and present analysis result by different graph.

STUDY AREA

The district North 24 Parganas forms the south-eastern part of the West Bengal and lies between 22°11'06" N to 23°15'02" N latitude and 88°20'E to 89°05' E longitude (figure-1). The district is bordered by the districts of Nadia in north, South 24 Parganas and Kolkata in the south, Howrah and Hooghly in the west. Bangladesh forms the eastern border of the North 24 Parganas. Barasat is the district headquarters. North 24 Parganas is the most populous district having 10009781 populations (Census of India, 2011) and also the tenth largest district in the state by area (4094.0 sq. km). It has five subdivisions, 22 community Development blocks, 27 municipalities and a total of 107 (Municipality 27 + Cantonment Board 01 + Census Town 78 + Industrial Township 01) urban centers. Total urban population of the district is 5732162 and 57.27% urban population. The density of population (2445persons/ sq.km.) is much higher than the state average of 1029 population per sq.km, and it ranks third in terms of population density.

PATTERN OF URBAN GROWTH AND URBANIZATION

For proper analyzing the urban growth and urban development in any area, it is important to study the processes and pattern urban growth and urbanization from various angles. At the same time it is also necessary to bring out the processes and pattern of urban growth and urbanization in North 24 Parganas district.

The present pattern of urbanization has evolved from ancient period to till now. Now coming to the North 24 Parganas district has long urbanization history. The volume, trend, processes and pattern have been analyzed from 1951 – 2011. Since the Independence of this country, district North 24 Pgs. of West Bengal, India has been experiencing a very high pace of urbanization both in terms of volume of urban population, number of urban centres and also urban areas. Urban population in this district has increased from 949243 in 1951 to 5732162 in 2011 implying a nearly six fold increase during the last 60 years (i.e. 1951 – 2011).

During the same (1951-2011) period, number of urban centres leaped from 36 to 107 (about 3 times). Similarly urban population to total population of the district increased from 42.92% in 1951 to 57.26% in 2011. Urban area have also increased from 9.75% (1951) to 24.81 % (2011). But it is found that in 1971 there are negative urban growths, due to some declassification of some census towns. This clearly signifies the speed and scale of urbanization in the district. Such urbanization was found in European Countries in the first quarter of the last century. The urbanization in this district was steadily very high during the last six decades (i.e. 1951 – 2011).

TABLE-1 URBAN AREA, URBAN POPULATION, NAME AND NUMBER OF THE URBAN CENTER OF NORTH 24 PARGANAS DISTRICT, (1951-2011)

Year	Urban Area in sq.km	Urban Area Increase in Percentage	Urban Population	Urban Population Density	Urban Population Increase in Percentage	Number of Urban Centres	Urban Centres Increase in Percentage	Name of the Urban Centres (Where M= Municipality, CT= Census Town, CB= Cantonment, Board= Industrial Towning, DG= Other Growth)
1951	110.38		949243	8602.8		36		22 Municipality (Durgam, Kancherpara, Daltola, Nishan, Durgam, Chhanchaga, Garcha, North Baruckpur, Baruckpur, Fingakh, Bafara, Haveli, Kharcha, Panch, Kanchan, Haranga, South Dhan, Dhan, Dhan, Dhan, South Dhan, Dhan, Bafarhat, Jalchhatra) 14 (1) (CB=1)
1961	161.92	9.75	1468298	9051	54.35	40	11.11	22 (9)=25 Municipality, Ashdanga, Kancherpara, Madhyamgram, Dhan, Baruckpur (1) (1) (CB=1)

------	--------	-------	---------	--------	-------	-----	--------	---

Source: Computed by authors from different Census Reports, 1951-2011

During the past 60 years 1951-2011 urban area increased from 331.58 sq.km to 623.91 sq.km and number of urban centres also increased from 36 (1951) to 111 (2011).

But in 2001 the urban centres decreased by -21.42%. The number of urban centres was 70 in 1991 and 55 in 2001. As some census towns have been merged to nearby municipality and some urban outgrowths also merged with municipality and then converted to census towns. This reduction of urban centres occurred due to declassification and reclassification of towns. The urban population density was 2862.8 sq.km in 1951 and 9187 sq.km in 2011. During from 1951 to 1971 the district had at high level of urbanization; between 1971-2001 level of urbanization was slow but steady. The increase of urban population in percentage, number of urban centres, urban rural ratio, urban population density, and percentage of increase urban centres all show a certain degree of urbanization in every census year (1951-2011) Table-1.

DEGREE OF URBANIZATION

The degree of urbanization is defined as relative number of people who live in urban areas. Percentage of Urban population (U/P*100), percent rural (R/P*100) and urban rural ratio (U/R * 100) are used to measure degree of urbanization. The ratio U/P has lower limit 0 and upper limit is 1. U/P =0 means 100% rural population, U/P=1 means 100% urban population.

TABLE-2 DEGREE OF URBANIZATION IN NORTH 24 PARGANAS DISTRICT, 1951-2011

Census Year	Rural Population	Urban Population	Percentage of Rural Population	Percentage of Urban Population	Urban Rural Ratio in Percentage
1951	1286927	949243	57.55	42.45	73.76
1961	1730490	1464267	54.10	45.83	84.85
1971	2133883	2066266	50.10	49.19	99.58
1981	2710771	2821366	49.00	50.99	104.08
1991	3539629	3730300	48.69	51.31	105.39
2001	4083339	4850947	45.70	54.30	118.80
2011	4277619	5732162	42.73	57.27	134.00

Source: Computed by authors from different Census Reports, 1951-2011

From above table-2 it is clear that percentage of urban population has increased from 42.45% in 1951 to 57.27% in 2011. Whereas percentage of rural population has shown the gradual decrease from 57.55% in 1951 to 42.73% in 2011. The urban rural ratio for the district in 2011 turned out to be 134, meaning that against every 100 ruralites there are 134 urbanities. This ratio gradually increased from 73% (1951) to 134% (2011). All these indices focused the high degree of urbanization of the district. In other hands urban rural ratio in West Bengal is 47% and in India is only 45%. These features indicate high pace of urbanization of the district compared to state and nation. This high urban growth is attributed mainly by large scale migration from rural areas and international migration from Bangladesh. Hooghly industrial belt and near of Kolkata metropolitan area are also responsible for the high level of urbanization of this district.

The significant fact is that though there is constant increase in rural population from 1951 to 2011 in the district but the percentage share of rural population have shown a constant decrease (Table 2). At the same time, there is constant increase in percentage share of urban population to total population of the district from 1951 to 2011 (Table-2).

DECADAL URBAN POPULATION GROWTH

The decadal growth rate is the growth rate of population by preceding decade. These may be positive or negative value. The Table-3 show the population decade of 1951-61 decade, the rate of growth of rural population (34.47

Principal
P.N. Das College
Basant Enamel, N 24 Parg

percent) was much lower than the urban population (54.26 percent). This figures is witnessed the highest rate of urban growth, compared to the next several decades. Because the decadal growth rate of urban, rural and total population gradually decreased from 1951 to 2011. But the decadal growth of urban population is greater than that rural and total population in every census year. In the decade of 2001-2011, the growth rate of urban population (18.17 %) is higher than rural population (4.76%) and total population (12.04%). This means the district gradually reached saturated condition in case of rural, urban and total population. So, the district represents as a most important populated district of the state as well as nation.

TABLE-3 DECADAL GROWTH OF POPULATION IN PERCENTAGE, NORTH 24 PARGAS DISTRICT (1951-2011)

Census Year	Rural Population	Urban Population	Total Population
1951-1961	14.41	54.26	42.87
1961-1971	13.31	41.11	31.47
1971-1981	27.03	36.54	31.71
1981-1991	30.58	32.22	31.41
1991-2001	15.36	30.04	22.89
2001-2011	4.76	18.17	12.04

Source: Computed by authors from different Census Reports, 1951-2011

From decadal growth rate in urban population of North 24 Parganas district went on declining consistently over the census decades, so the level of urbanization went on increasing. The decadal growth rate was 55% in 1951 and 18% in 2011. This means the district gradually reached to saturated condition in urban population. But the decadal growth rate of urban population in West Bengal and India has been oscillating in nature from decade to decade (Table-4). This represent the urban population density is high in the district, compare to state and nation. From this point of view to control the urban population load of the district, the urban areas have to need increase in surroundings of suburban areas and need to plan for existing urban areas.

TABLE-4 DECADAL URBAN POPULATION GROWTH IN NORTH 24 PARGANAS DISTRICT, WEST BENGAL AND INDIA (1951-2011)

Census Year	North 24 Parganas District	West Bengal	India
1951-61	54.26	35.97	26.41
1961-71	44.11	28.41	38.23
1971-81	36.54	31.73	46.14
1981-91	32.22	29.49	36.19
1991-2001	30.04	19.88	31.39
2001-2011	18.17	29.72	32.15

Source: Computed by authors from different Census Reports, 1951-2011

LEVEL OF URBANIZATION

The level of urbanization gradually increases from 1951 to 2011 in the district as well as state and nation. But the level urbanization in the district is double times compare to state and nation in every census years. The above Table-5 shows the total urban population in the district is 57% in 2011. On the other hand level of urbanization in West Bengal and India as a whole only 31.87% and 31.16% in 2011 census. This high level of urbanization of the district can be attributing to growth of Kolkata metropolitan and industrial belt of the district and other urban services and opportunity.

TABLE-5 LEVEL OF URBANISATION IN NORTH 24 PARGANAS, WEST BENGAL AND INDIA (1951-2011)

Census Year	North 24 Parganas District	West Bengal	India
1951	42.45	23.88	17.29
1961	45.83	24.45	17.97
1971	49.20	24.75	18.24
1981	51	26.47	23.34

URBAN POPULATION AND TOWNS SIZE DISTRIBUTION

Urban size class in North 24 Parganas district is a major component for urbanization. Actually, the urbanization is a function and processes of urban population size. Urban population in India is graded into six classes by census according to their respective population.

TABLE-6 CLASS WISE PERCENTAGE OF TOWN IN NORTH 24 PARGANAS DISTRICT, 1951-2011

Census Year	1951	1961	1971	1981	1991	2001	2011
Class-I Town	2.78	10.00	12.50	17.39	27.12	43.75	20.56
Class-II Town	16.67	20.00	27.30	23.91	11.86	4.17	2.80
Class-III Town	19.44	25.00	35.00	23.91	18.64	8.33	4.67
Class-IV Town	27.78	20.00	5.00	19.57	20.34	14.58	20.56
Class-V Town	2.78	2.50	15.00	13.04	18.64	27.08	46.73
Class-VI Town	30.56	22.30	5.00	2.17	3.39	2.08	4.67
Total	100	100	100	100	100	100	100

Source: Computed by authors from different Census Reports, 1951-2011

The urban class wise number of percentage of urban centres is important to measure level of urbanization. In 1991-2001 number of class -I towns were highest (43.75%). But in 2001-2011 a huge number (new CT= 58) of census towns have been formed. These all census towns are class -V category. It can be expected that these census towns will be merged to the near able higher class-I, II and III towns. So number of class -I, II, and III towns will be increased in future. So the urban agglomeration will continue in future.

TABLE- 7 URBAN CLASS WISE PERCENTAGE OF POPULATION IN NORTH 24 PARGANAS, 1951-2011

Census Year	1951	1961	1971	1981	1991	2001	2011
Class-I Town	14.21	33.61	40.33	45.20	71.93	86.60	79.07
Class-II Town	42.07	35.75	35.20	35.26	11.87	3.36	2.83
Class-III Town	25.86	20.15	21.12	12.93	9.52	3.06	3.46
Class-IV Town	15.35	8.16	0.58	4.43	4.27	2.02	4.71
Class-V Town	0.69	0.55	2.33	1.89	2.24	4.87	9.63
Class-VI Town	1.82	1.78	0.43	0.29	0.18	0.09	0.31
Total	100	100	100	100	100	100	100

 Patna, Patna, Jharkhand, N 24

The pattern of urbanization in India by continuous concentration of population and activities in large cities (Kundu, 1983) and concentration of population in medium and small towns (Kundu, 1994) either fluctuated or decline. In 1951 the class-I town was 14%, in 2001 this was 86% and in 2011 this was 79%. According to 2011 census the percentage of population gradually decrease, with decreasing the size-class of towns. The percentage share of urban population is high of Class-I towns from 1971-2011. At the same time urban population gradually decreased toward class II, III, IV, V & VI towns (Table-5.9). This is largely due to the fact that the towns are lower categories having grown in size and entered the next higher category (Kundu, 1994). A new territorial unit named as outgrowth has also been included within the urban category.

From Table-7 that the class-I towns dominate district's, in the term of their share of urban population from 1971-2011. In 1971, the share of population in class-I towns was 40.33 Percent which has gradually increase 86 percent in 2001 and 79 percent in 2011. But the feature was different before 1971, and then the class-II towns

were dominated districts in urban scene. In 1951 the population share of class-II towns were 42.07 percent and in 1961 was 35.75 percent, both were high population share towns. The share of urban population in class II, III, IV, and VI towns gradually decrease in every census year but share of urban population in class - V towns gradually increase due to formation of new Census Towns (CT) in every census year. The features represent the tendency of concentration of population is in large urban centres in the district in 1971-2011. This type of population distribution certainly reflect the over urbanized in class-I towns and others class (II-VI) towns are low urbanized towns. So the balance of urbanization has been need for urban development in the district.

TABLE-8 GROWTH RATE OF URBAN AREA AND URBAN POPULATION OF URBAN LOCAL BODIES AND CENSUS TOWNS IN NORTH 24 PARGANAS DISTRICT (1951-2011)

Census Year	Number of Urban Local Bodies	Population of Urban Local Bodies	Area of Urban Local Bodies in sq km	Number of Census Town	Population of Census Towns	Area of Census Town in sq km.	Number of Urban Out Growth	Total Number of Urban Centres
1951	23	905427	287.13	13	43816	44.45	0	36
1961	26	1377174	312.35	14	87093	51.57	0	40
1971	26	1909047	302.9	14	157219	51.57	0	40
1981	27	2535493	332.35	19	285873	71.68	13	59
1991	27	3242414	346.55	32	487886	89.04	11	70
2001	28	4656718	467.1	20	194229	32.8	7	55
2011	29	5001716	451.43	78	730446	172.48	4	111

Source: Computed by authors from different Census Reports, 1951-2011

Census Towns are first recognized by the census of India in 1971. The census towns are administered by gram panchayate, but their physical character is like an urban areas. After independence of India influx of huge refugees from neighboring country, industrialization, improvement of civic amenities and other pull factor of urban centres which lead to rapid growth of Census Towns. As a result number of Census Towns increased from 13 in 1951 to 78 in 2011. Populations of census towns are gradually increasing from 4.62 percent in 1951 to 12.74 percent in 2011, out of total urban population of the district. So the role of Census Towns for urbanization is very much important in the district. The balanced urbanization and urban growth may be achieved by promoting and acknowledging Census Towns near the larger urban centres and the population pressure will be reduced to near larger urban centres.

TABLE-9 URBANIZATION LEVEL IN NORTH 24 PARGANAS DISTRICT (2011)

Name of the Subdivision	Number of census town	Name of the urban local bodies (27 Municipality + 01 Cantonment board + 01 industrial township)	Remarks (Level of urbanization)
Bidhannagar	N/A	1 Bidhannagar (M) 2 Naldighata Industrial Township (ITS)	Very High
Barrackpore	24	1 Kancharipara (M+OG) 2 Hafesbar (M) 3 Naldi (M) 4 Bhatpara (M + OG) 5 Garulia (M) 6 North Barrackpore (M) 7 Barrackpore (M) 8 Tangra (M) 9 Khordah (M) 10 Parshadi (M) 11 New Barrackpore (M) 12 Karnahati (M) 13 Basantpur (M) 14 North DumDum (M) 15 Dum Dum (M) 16 South DumDum (M) 17 Barrackpur Cantonment (CB)	High
Barisal	34	1 Gobardanga (M) 2 Habra (M) 3 Ashokenagar Kalyangarh (M) 4 Rajahat Gopalpur (M) 5 Madhyanigram (M) 6 Barisal (M)	Moderate
Bangson	7	1 Bongaon (M)	Low
Bahadur	11	1 Baduria (M) 2 Taki (M) 3 Basrahat (M)	Very Low

Source: Computed by authors Census, 2011

After computing the composite Z-score, we are able to detect the compact of all the indicators for level of urbanization. These indicators are urban Households, Town Population, Sex Ratio, Literacy Rate, Slum population, Population Density, Road density, Sanitation facilities, Electricity facilities, Health condition,

Education status and banking facilities. Bidhannagar and Barrackpur subdivision show high level of urbanization due to nearness of Kolkata metropolitan and Hugli River industrial belt. Barasat is the district headquarters and nearness of Kolkata is present satisfactory explanation for moderate level of urbanization. Other two subdivision namely Bangaon and Basirhat show low level of urbanization for strong rural activity base.

CONCLUSION

The district have rapid rate of urbanization since independence both as a result of rural urban migration and after partition of India, the huge migration from Bangladesh. The urbanization concentrations are western part of district due to industrial belt, well transport system, other service sector and after all availability of non agro based economic activities. The rate of urbanization slowly spread towards eastern part of the district, due to agro base economic activities.

The district is near able of KMDA, so Bidhannagar and Barrackpure subdivision are very near to KMDA and symbolize as high urbanized area, within the district as well as the state. High level of urbanization promote economic diversification and low level of urbanization promote concentration of one economy activities, likely low level of urbanized area are agro based one economic activities and high level of urbanized area are diversified economic activities.

It is clearly that North 24 District experienced a high level of urbanization since independence. Due to emergence of a large number of new census town, rural urban migration, unauthorized migration from Bangladesh, Hugli River Industrial Belt, civic amenities, infrastructural development and other service facility. But there is present spatial disparity in urbanization level. The Bidhannagar subdivision which contains Bidhannagar municipality and Nabadiganta Industrial Town is fully urbanized area. Barrackpure subdivision which contains 24 Census Towns and 17 municipalities (a linear urban agglomeration of Kolkata) is high urbanized area. Barasat sub-division which contains 34 Census Towns and 6 Urban Local Bodies is moderate high urbanized area. This high urbanized zone lead to deterioration quality of urban environment and increase the concentration of civic amenities, infrastructural development and economic development. Therefore urbanization process should be continue by a uniform and balanced way all over the district. The low urbanized area i.e. Bangaon and Basirhat subdivision have to need more civic amenities, uplift infrastructure development, social awareness and take to need proper government policy for further urbanization like i) Balanced urban regional planning ii) Development of urban economy, iii) Integrated of Rural Urban Economy emphasis on agro base industry, iv) Increase of public amenities and infrastructural development, V) To established green urbanization and spacing for play ground, VII) Available of cultural entertainment facility in urban areas and so on. How the Govt. and other NGO faces this more challenge remains to be seen.

INDIAN JOURNAL OF REGIONAL SCIENCE

The Indian Journal of Regional Science is devoted to the publication of original research work in Regional Science and Development Planning. Each volume of the journal is published twice a year. Papers and published abstracts shall not be accepted for publication in the journal and published papers cannot be reproduced elsewhere without permission. It is listed in ISI, journals and is a peer reviewed scientific journal.

Instructions for the Contributors

The paper intended for publication should be sent to the Managing Editor, one hard copy and one soft copy (by e-mail with CD) for soft copy. An Abstract, which must accompany each paper, should be short and indicative only of the scope and major findings of the paper. Manuscripts must be word processed using MS Word (font size 12). After typing the paper must be edited to show margins, footnotes, symbols, etc. if necessary should be clearly handwritten. Maps and figures for illustrations should be clean printed or drawn on a white tracing paper or blue black ink. They should not be pasted or map and illustrations. Maps and illustrations should be supplied in floppy or CD. Appropriate legends should accompany all figures. A map or figure including tables and captions must be written in area of 1" x 1". Papers should not be loaded with statistical tables that can perhaps be avoided for a journal publication. All tables, maps, etc. should be placed at the end of the paper. Also References, if any, References must be in alphabetical order (surname first) year of publication unless brackets are used and must strictly follow the standard bibliographical norms. The maximum length of a paper should be within 25 double-spaced typed pages including all Tables, References, etc. on one side of A4 size paper. Books for review should be sent in duplicate. Editorial handling charges for each paper published is Rs. 1,000 and to be sent along with the paper. All authors need to be members of the Association.

Availability of the Journal

Individuals who are Members of Regional Science Association, India will get the Journal free of cost. Membership fees of the Regional Science Association, India are - Ordinary Members, Rs. 100 (Annual), Student Members, Rs. 70 (Annual), Life Members, Rs. 10,000 (10 years) and Foreign Members, US \$40 (Annual), Foreign Life Members, US \$400. International Membership fee is Rs. 25,000 maximum for a period of 10 years. Annual Membership fee is due in January every year and renewed automatically by post. For complete details and subscription of the journal through indiasocietymembers.com by paying INR 2,000/US\$ 200 per year visit site at <http://www.indiasocietymembers.com/journal/journal-publication/index.html>.

The Association appeals to all the Indian members (old and new) to donate a sum of Rs. 5,000 towards Journal Endowment Fund. Foreign members may donate US \$400.

Remitting fee are payable through M.O. (Cash Draft or S.E.I. Calcutta) to the Association, Attn: R. P. for assistance cheques.

All correspondence regarding membership and subscription to the Journal should be addressed to Dr. C. R. Patil, Regional Science Association, India, C-13, Sector-8, Salt Lake City, Kolkata-700091, W.B. (INDIA) 2288807; e-mail: crpatil@rediffmail.com, india@rsaonline.com, Website: www.rsaindia.com

The objectives of Regional Science Association, India, are to develop the tools of Regional Analysis and to encourage the application of such tools in the formulation and execution of policies of regional development. These objectives are sought to be realized by encouraging publication of research reports, journals and monographs; undertaking research investigations and empirical investigations; sponsoring national and international level Conferences and Seminars; regional and inter-regional services to the cause of advancement of learning in the applied fields of regional science.

Published by: Dr. C. R. Patil, on behalf of Regional Science Association, India from C-13, Salt Lake City, Kolkata-700091, West Bengal.
